

CUT PROFITS

NOT SERVICES & JOBS

The rail companies have frozen many rail workers' pay and want to cut your rail services and thousands of rail workers' jobs.

As a last resort, rail workers are taking strike action to defend their jobs, pay and conditions.

While the rail companies are threatening passengers and rail workers with cuts, the companies made a fortune during the Covid-19 pandemic.

80% of profits go to foreign owned companies!

On average, the rail companies are making £500m a year profits.

Instead, this could be invested to protect jobs and services.
